RE: F-1 Student Visa Application
Applicant: Rafael Santos Oliveira
Passport: BR123456789
SEVIS ID: N0012345678
Program: Master of Science in Computer Science
Institution: Boston University

Dear Consular Officer:

I. INTRODUCTION

I, Rafael Santos Oliveira, a 26-year-old citizen of Brazilian, respectfully submit this F-1 student visa application to pursue a Master of Science in Computer Science at Boston University, commencing September 3, 2025. I have been unconditionally admitted to this program and have received my Form I-20 (SEVIS ID: N0012345678) from the university.

II. ACADEMIC BACKGROUND

I hold a Bachelor's Degree (Graduação) in Computer Science from Universidade de São Paulo (USP), where I graduated in December 2020 with a GPA of 3.7/4.0. During my undergraduate studies, I distinguished myself through academic excellence, earning placement on the Dean's List for 4 semesters. I also published a research paper on Machine Learning and served as a Teaching Assistant for the Data Structures course, demonstrating both my academic capability and commitment to the field.

My undergraduate curriculum included advanced coursework in Advanced Algorithms, Machine Learning, Database Systems, providing me with a strong foundation for graduate studies. My academic achievements reflect my dedication to computer science and my readiness for the rigorous graduate program at Boston University.

III. PROGRAM SELECTION AND ACADEMIC GOALS

I have chosen Boston University's Master of Science in Computer Science program with a specialization in Machine Learning and Artificial Intelligence for several compelling reasons:

1. Academic Excellence: Boston University's Computer Science program is ranked among the top 50 in the United States and is particularly renowned for its research in artificial intelligence and machine learning. The program's faculty includes leading researchers whose work aligns perfectly with my academic interests.

2. Specialized Curriculum: The program offers specialized coursework in machine learning and AI that is not available at this advanced level in Brazil. This specialized knowledge is essential for my career goals and will enable me to contribute to Brazil's growing technology sector at a higher level.

3. Research Opportunities: The university's state-of-the-art research facilities and industry partnerships will provide me with hands-on experience in cutting-edge AI technologies, which is crucial for my professional development.

The 2-year program (2 years (4 semesters)) requires completion of 32 credits and includes either a thesis or capstone project, allowing me to develop both theoretical knowledge and practical skills in my field.

IV. FINANCIAL SUPPORT AND SELF-SUFFICIENCY

I have comprehensive financial resources to cover all expenses during my studies in the United States:

Total Program Cost: $114,000 (2 years)
Annual Cost Breakdown:
• Tuition and Fees: $32,000 per year
• Living Expenses: $18,000 per year
• Books and Supplies: $1,500 per year
• Health Insurance: $2,500 per year
• Personal Expenses: $3,000 per year
• **Total Annual: $57,000 per year**

Sources of Funding:

1. Personal Savings (39%): $45,000
I have accumulated substantial personal savings during my 4 years of professional work as a software engineer. My bank statements from Banco do Brasil show a current balance of R$ 225,000 (~$45,000 USD), demonstrating my financial responsibility and planning.

2. Parental Support (44%): $50,000
My parents, Carlos Alberto Oliveira (Civil Engineer) and Ana Maria Santos Oliveira (Financial Controller), have committed to supporting my education. Their combined annual income is R$ 390,000 (~$78,000 USD). They maintain substantial savings in Itaú Unibanco with a current balance of R$ 250,000 (~$50,000 USD). Additionally, they own property valued at over $480,000 USD, demonstrating their financial stability.

3. University Scholarship (17%): $19,000
Merit-based scholarship, $9,500 per year for 2 years

Total Available Funding: $114,000

Financial Documentation Included:
• Bank statements (6 months) from both my account and my parents' accounts
• Parents' employment verification letters and income statements
• Property ownership documents
• University scholarship award letter
• Affidavit of Support from my parents
• Parents' tax returns (demonstrating financial capability)

This comprehensive financial documentation demonstrates that I have sufficient, legitimate funds to cover all expenses during my studies without the need to work illegally or become a burden on the US system.

V. STRONG TIES TO BRAZIL AND INTENT TO RETURN

I have deep and unbreakable ties to Brazil that ensure my return after completing my studies:

1. Family Ties (Primary and Strongest):
My entire immediate family resides in Brazil:
• **Parents:** Carlos Alberto Oliveira (age 54) and Ana Maria Santos Oliveira (age 52) both live and work in São Paulo
• **Sister:** 1 sister (age 23) studying dentistry in São Paulo
• **Extended Family:** Grandparents, aunts, uncles, and cousins all reside in Brazil

I have extremely close relationships with my family. As an only son (with one sister), my parents depend on me for support as they age. This creates a strong obligation and desire to return to Brazil after my studies.

2. Property and Financial Ties:
My family owns substantial property in Brazil:
• Primary Residence in São Paulo: Rua Augusta, 1520, Apto 1205, São Paulo, SP, valued at R$ 1,800,000 (~$360,000 USD)
• Additional Property: Beach apartment in Santos, SP, valued at R$ 600,000 (~$120,000 USD)

As the only son, I stand to inherit a significant portion of these assets, creating a strong financial incentive to maintain my ties to Brazil.

3. Career Opportunities in Brazil:
Brazil's technology sector is experiencing rapid growth, with particularly strong demand for professionals with advanced knowledge in AI and machine learning. My career plan is specifically focused on returning to Brazil to:
• Apply my advanced knowledge to Brazil's growing tech industry
• Work for leading Brazilian tech companies such as Nubank (Brazilian fintech), Magazine Luiza (E-commerce)
• Expected salary: R$ 15,000-20,000/month (3-4x current Brazil wages) - substantially higher than current wages
• Long-term goal: Eventually start own tech company in Brazil

The knowledge I gain from this US education is specifically intended to enhance my ability to contribute to Brazil's technological development, not to immigrate permanently to the United States.

4. Current Professional Position:
I currently work as a Junior Software Engineer at Tech Solutions Brazil Ltda in São Paulo, where I have been employed since January 2021. I have established professional relationships and a career trajectory in Brazil. Several colleagues from my company have pursued graduate studies abroad and returned to Brazil, achieving significant career advancement.

5. Cultural and Social Ties:
Brazil is my home. Portuguese is my native language. All my friends, my community, my cultural identity, and my life are in Brazil. At age 26, I have no desire to abandon everything I know and love to start over in a foreign country. The United States is purely an educational destination for me, not a

place to immigrate.

6. Previous International Travel:
I have traveled internationally before (Visited Argentina (2019), Portugal (2021)) and have always returned to Brazil as scheduled. I have no history of overstays or immigration violations anywhere.

Intent to Return:
Upon completing my master's degree, I intend to return immediately to Brazil. My F-1 visa application is for temporary educational purposes only. I have no immigrant intent whatsoever. The advanced education I seek is a means to enhance my career in Brazil, not a pathway to remain in the United States.

VI. ENGLISH LANGUAGE PROFICIENCY

I have demonstrated strong English language proficiency through standardized testing:

TOEFL iBT Score: 105/120
Test Date: December 10, 2024
Test Report Number: 0000123456789

Section Scores:
• Reading: 28/30
• Listening: 27/30
• Speaking: 24/30
• Writing: 26/30

University Requirement: Minimum 90 for Boston University
Status: EXCEEDS REQUIREMENT

My TOEFL score significantly exceeds Boston University's minimum requirement, demonstrating my ability to succeed in an English-language graduate program. Official TOEFL score report is included in this package.

VII. STANDARDIZED TEST SCORES (GRE)

I have taken the GRE General Test to demonstrate my academic preparedness:

Test Date: November 15, 2024
Verbal Reasoning: 158/170
Quantitative Reasoning: 168/170
Analytical Writing: 4.5/6.0
Combined Score: 326/340
Percentile: 90th percentile overall

While Recommended but not required by BU, my strong GRE performance demonstrates my academic capability and readiness for graduate-level coursework. Official GRE score report is included.

VIII. COMPREHENSIVE DOCUMENTATION ENCLOSED

This application package contains complete documentation to support my F-1 visa application:

A. Core Immigration Documents:
• Form I-20 (Certificate of Eligibility for Nonimmigrant Student Status) - Original
• SEVIS Fee Payment Receipt (Form I-797) - To be obtained
• DS-160 Confirmation Page - To be completed
• Passport (valid until 2032)
• Passport-style photographs (2)

B. Academic Documents:
• Bachelor's degree diploma from USP
• Official transcripts (with English translation)
• Boston University acceptance letter (unconditional admission)
• TOEFL official score report
• GRE official score report
• Academic achievement certificates
• Published research paper

C. Financial Documents (Comprehensive):
• Personal bank statements (6 months) - Banco do Brasil
• Parents' bank statements (6 months) - Itaú Unibanco
• Parents' employment verification letters
• Parents' income tax returns
• Affidavit of Support from parents
• Boston University scholarship award letter ($19,000)
• Property ownership documents (family properties worth $480,000+)

D. Ties to Brazil:
• Current employment verification letter
• Family photographs and documentation
• Property deed for family home
• Previous international travel records (passport stamps)
• Community involvement documentation

E. Supporting Letters:
• Recommendation letter from Prof. Dr. Maria Silva (Academic Advisor, USP)
• Recommendation letter from Dr. João Santos (Manager, Tech Solutions Brazil)
• Recommendation letter from Prof. Dr. Carlos Mendes (Department Head, USP)
• Letter from current employer regarding leave of absence
• Letter from parents confirming financial support

F. Additional Documents:
• Statement of Purpose
• Detailed study plan
• Post-graduation career plan (focused on returning to Brazil)
• Resume/CV

All documents are organized by section, clearly labeled, and include English translations where applicable.

IX. CONCLUSION AND RESPECTFUL REQUEST

This F-1 visa application represents my sincere desire to pursue advanced education in computer science at a leading US institution. My application is supported by:

1. Strong Academic Qualifications: Bachelor's degree with 3.7 GPA from a prestigious Brazilian university, excellent TOEFL (105) and GRE (326) scores, published research, and unconditional admission to a top-ranked graduate program.

2. Complete Financial Support: Total funding of $114,000 from personal savings, parental support, and university scholarship - fully documented with 6 months of bank statements, employment verification, and property ownership records.

3. Deep Ties to Brazil: Entire immediate and extended family in Brazil, family property worth $480,000+, established career in Brazilian tech industry, strong cultural and social connections, and clear career goals focused on returning to contribute to Brazil's technology sector.

4. Temporary Intent: No immigrant intent. Clear educational purpose with defined timeline (2 years). Compelling reasons to return to Brazil including family obligations, career opportunities in Brazil's growing tech sector, and personal/cultural ties.

5. Compliance History: No previous immigration violations anywhere. Always returned from international travel as scheduled.

I understand and respect the requirements and restrictions of F-1 student status. I commit to:
• Maintaining full-time enrollment (minimum 12 credits per semester)
• Maintaining satisfactory academic progress
• Not engaging in unauthorized employment
• Departing the United States upon completion of my program
• Complying with all US immigration laws and regulations

Request:
I respectfully request that the US Consulate grant me an F-1 student visa to pursue my Master of Science in Computer Science at Boston University. This educational opportunity will enable me to gain advanced knowledge that I will use to contribute to Brazil's technological development and economic growth.

Thank you for your time and consideration of my application. I am prepared to answer any questions during my visa interview and to provide any additional documentation that may be required.

Respectfully submitted,

_____
Rafael Santos Oliveira
